## ACCREDITATION CLOSURES ON WEDNESDAY, MARCH 5, 2008

\*Please note that it may be necessary, depending on numbers, to limit the number of photographers in certain areas. In such a case only one per publication/organisation will be included. It may also be necessary to restrict movement at some cross-country obstacles, in consultation with the Technical Delegate/Course Designer. Only photographers and journalists (who will have ID badges) accredited to a publication/organisation will be permitted inside the cross-country ropes and they must at all times obey the fence officials. All media should sign in at the secretary's office on arrival to receive ID (probably armbands for photographers, badges for journalists) to assist officials.
